The Circle Project: Creating Social Capital for Students and Families

Mary K. Laska, Ph.D
National Children's Advocacy Center
Alabama A&M University
March 2004

Social Capital

- Social Capital can be described as social resources, or the number and intensity of social relationships
- Social Capital provides interpersonal resources for people to use to deal with daily life, seize opportunities, and reduce uncertainties
- These resources are contained in the ties between individuals

Types of Social Capital

- **Bonding Social Capital:** strong ties that exist between family members and close friends
- **Bridging Social Capital:** weak ties between individuals across diverse groups
  - Bridging Social Capital is crucial to the well-being of persons in places of poverty because such capital allows them access to resources outside their immediate neighborhood

Program Description

Children dwell within the circle of family; families and schools reside within the larger circle of community. The Circle Project brings these concepts together into Full-Circle Schools, schools that realize that the goal of educational excellence cannot be met until the entire community is integrated into the circle of support for students and families.

Program Goals

- Coordinating services for children and families
- Overcoming the accessibility issue by bringing services TO children and families
- Increasing capacity of existing quality services
- Building Social Capital in the school environment

Personnel

- Circle Project Coordinator: overall project management from central location
- Circle Project Assistant: onsite management of daily activities at the school
- Subcontractors:
  - Mental Health Counselors: come to the schools to meet with the children/families
  - Department of Human Resources workers: come to the school to meet with the children/families
  - Big Brothers/Big Sisters: mentoring and tutoring at the school

Presented at the 17th Annual RTC Conference, Tampa FL, 2/29 – 3/3 2004. For more information, contact Mary Laska: mlaska@nationalcac.org
Schools
- Represents the three regional school districts in Madison County:
  - Huntsville City School System
  - Madison City School System
  - Madison County School System

Recruitment and Selection
- Elementary age students and preschoolers and their families are eligible
- The students and families expected to utilize the services may be vulnerable or high-risk
- School staff (teachers, counselors, and administrators) will make referrals to the Circle Project Program
- Parents, guardians, or caregivers will be informed of the services available and may refer their children/themselves for services

Research Questions
- What is the condition of the neighborhood surrounding the school?
- What is the condition of the school?
- What are the characteristics of the children and families being served by the Circle Project?
- What referrals are being made through the Circle Project?
- What is the impact of the Circle Project?
- Is there evidence that the Circle Project is building social capital?

Methods
- 101 referrals were analyzed from January 2003 to November 2003.
- 48 teachers surveyed (response rate of 38.7%)
- 19 parents interviewed (response rate of 23.8%)
- 26 child records reviewed (response rate of 25.7%)
- Additional data collected from Census Data and Alabama Department of Education

<tbody>
<tr>
<td>Did the services you received meet your needs?</td>
<td>94.7</td>
</tr>
<tr>
<td>Were you aware of all the services offered by the Circle Project prior to this interview?</td>
<td>31.6</td>
</tr>
<tr>
<td>Does your child enjoy participating in Circle Project activities?</td>
<td>63.2</td>
</tr>
<tr>
<td>Would you utilize the Circle Project again?</td>
<td>100.0</td>
</tr>
<tr>
<td>Would you recommend the Circle Project to others?</td>
<td>100.0</td>
</tr>
<tr>
<td>Did the services you received meet your expectations?</td>
<td>94.7</td>
</tr>
</tbody>
</table>

Impact

- Teacher report of improvement in child’s classroom behavior/performance
  - 51.9% reported positive change in the classroom performance
  - 46.2% reported positive change in behavior in the classroom
- Increased social capital
  - 101 referrals made
  - 68% of the referred families/children did not know of the services offered before the referral

Future Analysis

- Teacher/Staff interviews
  - Perceptions of the process
  - Teacher Stress Index
- Child interviews
  - Perceptions of the Circle Project
  - Standardized Child Instruments
- Additional Social Capital items
  - Number of contacts with social service agencies
  - Number of contacts with family/friends

Issues

- Consistency of Data
  - State Department of Education reports
  - Grades
  - Disciplinary Actions
- Low response rates for parents/children
  - Parents 23.8%
  - Children 25.7%
- Not enough time to measure concrete impacts
