Study 6: The Family Voice Study: Assessing the Role of Family Organizations in Developing Family Voice in Systems of Care

ASSUMPTIONS, INDICATORS, & DESCRIPTORS

Purpose:

To examine how family voice, as represented through family-run organizations, contributes to the implementation of effective systems of care.

Objectives:

- 1. To examine how effective family-run organizations are linked to effective and integrated systems of care;
- 2. To increase the field's understanding of the structures, processes, and relationships of family-run organizations in systems of care;
- 3. To test the factors that contribute to the development and sustainability of an effective family-run organization;
- 4. To examine and develop methods of diffusion that are anchored in its utilization for systems –of-care transformation

Research Questions:

- 1. How do family run organizations contribute to the implementation of local systems of care?
- 2. How do family-run organizations contribute to the sustainability of local systems of care?
- 3. How are the systems-of-care implementation factors understood and operationalized from the perspective of family-run organizations?
- 4. What factors support or impede the development of family-run organizations in the context of systems of care?

How important is it that youth operate in a peer support role to assist other youth in navigating systems? To what extent do policies and practices of the system of care encourage and support individual youth to operate in a peer support role to assist families and youth in navigating systems? To what extent do policies and practices of the system of care encourage and support your Family Organization or a Youth Organization to operate in a peer support role to assist families and youth in navigating systems? To what extent does your Family Organization encourage and support youth to operate in a peer support role to assist families and youth in navigating systems? How important is it that youth operate in a peer support role to assist other youth in providing information? To what extent do policies and practices of the system of care encourage and support individual youth to operate in a peer support role to assist other youth in providing information?

6) In an effective, integrated system of care, a family-run organization is encouraged and supported to help families access the system.	To what extent do policies and practices of the system of care encourage and support your Family Organization or a Youth Organization to operate in a peer support role to assist other youth in providing information? To what extent does your Family Organization encourage and support youth to operate in a peer support role to assist youth in providing information? How important is it that youth operate in a peer support role to assist other youth in providing emotional support? To what extent do policies and practices of the system of care encourage and support individual youth to operate in a peer support role to assist youth in providing emotional support? To what extent do policies and practices of the system of care encourage and support your Family Organization or Youth Organization to operate in a peer support role to assist youth in providing emotional support? To what extent does your Family Organization encourage and support youth to operate in a peer support role to assist youth in providing emotional support? How important is it that family members help families access services and supports? To what extent do policies and practices of the system of care encourage and support individual family members to help families access services and support your Family Organization to help families access services and support your Family Organization to help family help families access services and support your Family Organization to help family help families access services and support your Family Organization to help family help families access services and supports?	Describe the policies and practices of the system of care that encourage and support family-run organizations to help families access the system? Describe what your Family Organization is doing to help families access the system.
7) In an effective, integrated system of care, a family-run organization plays a key role in helping to ensure the type and quality of services provided.	How important is it that family-run organizations play a key role in helping to ensure the type and quality of services provided?	Describe how the system of care encourages and supports your Family Organization to play a key role in helping to ensure the type and quality of services provided.

	To what extent does the system of care support and encourage individual family members to have a key role in helping to ensure the type and quality of services provided? To what extent does the system of care support and encourage your Family Organization to have a key role in helping to ensure the type and quality of services provided? To what extent does your Family Organization support and encourage individual family members to have a key role in helping to ensure the type and quality of services provided?	
8) In an effective, integrated system of care, a family-run organization has productive working relationships with state and local agencies (i.e., purchasers) and with providers in order to strengthen policy commitment and service delivery to children with mental health needs.	How important is it that family-run organizations have productive working relationships with local agencies? To what extent do policies and practices of the system of care encourage and support your Family Organization to have productive working relationships with local agencies? To what extent does your Family Organization have productive working relationships with local agencies? How important is it that family-run organizations have productive working relationships with state agencies? To what extent do policies and practices of the system of care encourage and support your Family Organization to have productive working relationships with state agencies? To what extent does your Family Organization have productive working relationships with state agencies? How important is it that family-run organizations have productive working relationships with providers? To what extent do policies and practices of the system of care encourage and support your Family Organization to have productive working relationships with providers? To what extent does your Family Organization have productive working relationships with providers?	Describe the types of working relationships that your Family Organization has with state agencies. Describe the types of working relationships that your Family Organization has with local agencies? Describe the types of working relationships that your Family Organization has with providers? What are the opportunities and challenges associated with these working relationships? What is the "value-added" of these working relationships?
9) In an effective, integrated system of care, mechanisms are in place to sustain a family-run organization.	How important is it that a system of care has mechanisms in place to sustain a family-run organization? To what extent does the system of care have mechanisms in place to sustain your Family Organization?	Describe the system of care mechanisms in place to sustain your Family Organization. Describe the activities of your Family Organization related to sustainability.

		T
